Comment on nhess-2021-250

jie ming

Community comment on "Insights from the topographic characteristics of a large global catalog of rainfall-induced landslide event inventories" by Robert Emberson et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-250-CC1>, 2021

This paper is wonderful. Such landslide event inventories related to rainfall and the discussions are useful for the hazard reduction.
